Fairtrade

Our Year 6 did a presentation to the Children's Parliament about Fairtrade and the impact Fairtrade has made on the people in the world which has made us all more aware about Fairtrade. As a staff we now buy all Fairtrade products to make out tea and coffee and each week there is a Fairtrade fact in the newsletter. Currently we are trying to source Fairtrade cotton for our school uniform.

Netball and Rugby

Both teams have gone from strength to strength. The school also did a sponsored netball shoot to raise money for a new netball kit. Their new kit looks very smart.

Although from the smallest team in the competition the rugby team were runners up in a local tournament only losing by one try!

School Renovations

You may have noticed lots of contractors on site during the last few weeks. We are in the process of renovations in and around the school. The outside painting is almost completed and class 1 now has a new disabled access. Gardening club are busy revamping the grounds and all of us are growing different types of vegetables in our new vegetable beds. In fact everyone is so keen I have been asked if we can turn more of our grounds into growing areas!! Roll on Autumn when we can sample all our produce.

Kick Starting Health

You may be interested to know that we took part in a County Video about children's health in which Spaxton School features as a good example of providing healthy meals (courtesy of 4 Forks Catering). This has been distributed throughout the County so everyone now knows about our lovely and healthy lunches!!!

Birthday Celebrations

Next year it will be our 150th birthday. If anyone has any ideas about how we might celebrate this milestone in the school's life please let us know. We would love to hear **ex-pupils memories** about the school - verbal / written / photos for a display to mark the 150 anniversary.
